Relocating to County Kildare, Ireland — October 2026

Profile

Software Developer with professional experience building and maintaining business web applications using Java, Spring Boot, Angular, TypeScript and SQL Server. Experienced in REST API development, frontend and backend integration, and database-driven applications.
Relocating to County Kildare, Ireland in October 2026, and open to Software Developer, Full Stack Developer and Java Developer opportunities.

Skills

Strong: Java · Spring Boot · Angular · TypeScript · REST APIs· SQL Server · JPA / Hibernate · Git
Familiar: AngularJS · MySQL · .NET (basic) · Docker (academic)· Agile development environments
Exposure: AWS (fundamentals) · CI/CD concepts · Microservices architecture

Work Experience

Full Stack Developer
Bodegas López Morenas · Spain
July 2024 – August 2026

- Contributed to the development and maintenance of a production ERP system managing production workflows, purchase orders and raw material stock for a 50+ employee winery, supporting multiple business departments.
- Developed Angular 12 frontend features and Spring Boot backend services using JPA/Hibernate and SQL Server.
- Designed and maintained RESTful APIs connecting frontend modules with backend services, improving data consistency and enabling new functionality.
- Worked directly with operations and management stakeholders to gather requirements, implement solutions and improve business processes.

Full Stack Developer — Internship
MINSAIT (Indra Group) · Spain
January 2024 – June 2024

- Contributed to an airline management web application using Spring Boot, Hibernate, AngularJS and SQL.
- Built and integrated backend REST endpoints consumed by the AngularJS frontend, gaining practical experience in API design and cross-layer data flow.
- Worked within a team of 12 following Agile ceremonies — sprint planning, daily stand-ups and retrospectives — in a structured professional environment for the first time.
